Part B for

SUBJECT

Technical Assistance to the Chief Engineer for Irrigation

W 4645-46 4.1.46

To

The Chief Engineer for Irrigation
The Comptroller (thro' Fd Secty)

Sanctions the proposal for the entertainment of an additional P&I Engineer on the usual grade pay of Rs 200-400/2-400 to serve as a Technical Assistant to him as a typist-clerk on Rs 30-4-70 temporarily for one year

Serial No.

Letter no 2128/E dated 4-10-1945 from the Chief Engineer for Irrigation.

Requests sanction to the entertainment of an additional Assistant Engineer on Rs 200-40/2-400 to serve as a Technical Assistant to the Chief Engineer for Irrigation as also a typist-clerk on Rs 30-4-70 temporarily for a period of one year from 1-11-1945.

The Chief Engineer states that consequent on the formation of the several minor tank restoration Ranges, the taking up of several projects in connection with the "Grow More Food Campaign" and other several projects to be worked up relating to Post-War development schemes, the work in his office, both clerical and technical has increased very much and that the necessity for augmenting suitably the existing establishment has become absolute. The Asst to the Chief Engineer for Irrigation is in additional charge of the entire provincial establishment of the P.W. Dept and is unable to cope with the existing heavy work. He, therefore, requests sanction to the entertainment of an additional officer of the status and rank of an Assistant Engineer to serve as technical assistant to him

NOTE—Contn. Sheet.

Technical Asst to the CE for Irrigation.

1528

File No. of 194 — General and Revenue Secretariat — Serial No.

as also a typist clerk on Rs 30-4-70 to cope with the heavy increase in work in Correspondence.

2 This is a Civil matter and requires financial concurrence. The proposition & statement requires to be verified by the Comptroller.

3 At present there is only one assistant to the chief Engineer for irrigation, who has to attend to both the works of (1) ~~Scrutiny~~ Scrutinising estimates and plans and also (2) establishment and misc matters. The work in Irrigation section has considerably increased of late, especially with the heavy programme of restoration of minor tanks.

Rs 10/10/41 Rs 11/10/41

4 It is absolutely necessary to have one technical assistant, just as in the case of the Office of the Chief Electrical engineer, so that the projects may be seen into in detail and submitted to Govt in proper form. The personal assistant will then look after only misc matters and establishment.

5 Sanction may therefore be accorded for giving one assistant engineer to serve as a technical asst to the chief Engineer and one ~~typist~~ Steno-typist on 30-4-70.

I agree with the Secretary, Public Works Department. The need for the typist-clerk also is not clear. The staff for the two Chief Engineers was recently augmented and it may be too early to consider any additions to the establishments.

I think there is a great need for some additional assistance to the Chief Engineer. I find that there has been inordinate delay in correspondence and that is attributed to want of proper assistance in the office of the Chief Engineer. I would therefore support the proposal of the C.E.D. in the interest of quicker despatch of work.

GOVERNMENT OF MYSORE

OFFICE OF
CHIEF ENGINEER FOR IRRIGATION

Phone

No. 2128/E

Encls. 1 Statement in duplicate

Dated 24-10-45

Date

To

The Secretary to Government,

Public Works Department,

Bangalore.

Sir,

I have the honour to state that in connection with the intensive programme of Development of Irrigation in the State, the following works are started and others are under contemplation:-

(i) the formation of the several proposed Minor Tank Restoration Rang in the state (3 are already formed at Tirthahalli, Hunsur and Dor since the year 1943-44;

(ii) the several projects taken up for Grow More Food Campaign;

(iii) by the execution of important big projects since sanctioned by Government in the Shimoga Circle and several other big projects that are under scrutiny and preparation as per five year programm of Development of Irrigation sanctioned in October 1944;

(iv) by taking up several important pick-up channel projects such as Hebbehalla, Hulubalu, Keelara etc., in the Irwin Canal area, for rapid improvement of duty to be realised, and;

(v) by taking up important big projects to be developed immediately in the Cauvery and Kabbini valleys as per the 1924 Agree with Madras and lastly;

(vi) in connection with the working of the several Post-war Development projects and to get them sanctioned and to attend to the - - correspondence of these projects intermingled with two Governments

2. Consequentky on the above, the work in this office, both Clerical and technical, has increased very much and the necessity for augmenting the existing establishment suitably has become absolute. The Assistant to the Chief Engineer for Irrigation who is also in charge of the entire provincial establishment of the Department andpther important works, is able to cope up with the existing heavy work. As these important works require very efficient check of all details and scrutiny by an independn Officer under my personal guidance and supervision, the entertainment of

P.T.O

of another Officer of the status of an Assistant Engineer to serve as Technical Assistant to the Chief Engineer for Irrigation has become an urgent necessity, to obviate delay in sanction of projects and their submission to Government.

3. The increase in correspondence due to the taking up of the above works has become so heavy that I am quite convinced of the necessity to have an additional Typist-clerk in grade Rs.30-4-70 to ensure prompt disposal of correspondence connected with these important works.

4. In this connection, it may be stated that one of the places of the Surveyor Draftsman in this office will be retrenched. The extra cost on account of having a Technical Assistant of the status of an Assistant Engineer and a Clerk-typist in grade Rs.30-4-70 will be only Rs.244 2/3 per mensem as shown in the enclosed proposition statement. The small extra cost involved on the above proposal is more than justified while compared with the important work to be turned out by the Officer in scrutinizing the important and costly projects.

I therefore request that sanction of Government may kindly be obtained and communicated for the entertainment of an additional Assistant Engineer in grade Rs.200-40/2-600 to serve as Technical Assistant to the Chief Engineer for Irrigation and a Typist-clerk in grade Rs.30-4-70 temporarily for a period of one year from 1-11-1945.

I have the honour to be,
Sir,
Your most obedient servant,

Chief Engineer for Irrigation.

THE MAHARAJA OF MYSORE

Public Works Department

Read :—

G.O.No.3888-947/C.B.170-43-1 dated 12th April 1944, according anction to the appoint ent of two Chief Engineers, one for Irrigation nd the other for Roads and Buildings, with the direction that separate rders will issue regarding the distribution of establishment between he two Chief Engineers.

2. Letter No.1664/KSS dated 22nd May 1944 from the Chief Engineer for oads and Buildings, submitting proposals for the distribution of esta- lishment between the two Chief Engineers' Offices and for the entertain- ent of a few additional hands that have become necessary on account of he bifurcation.

---

rder thereon No.P.W. 1721-23 Dated, Bangalore, 22nd Septr. 1944. 11/10

The P.W.D. Administrative Office was bifurcated in April 1944 nto two independent units, viz., Office of the Chief Engineer for Irri- gation and the Office of the Chief Engineer for Roads and Buildings. he Chief Engineer has submitted proposals for the distribution of the xisting establishment between the two offices and the entertainment of a few additional hands. In view of urgency, some of these additional ands are also reported to have been entertained gradually from July 1944 o get through the office work, pending sanction to the proposals. The proposals have been suitably modified.

3. Government are pleased to accord sanction to the scale of esta- olishment of the two Chief Engineers' Offices being fixed as shown in the annexure, with effect from 1st July 1944.

Gurubacha 4/9/44

Secretary to Government,
Public Works Department.

To

The Chief Engineer for Irrigation in Mysore.
The Chief Engineer for Roads and Buildings.
The Comptroller to Government (through the Fl.Sectt).

Note for circulation in Council.

HHN. 434

Proposal to sanction a technical asstt to the Chief Engineer for Irrign.

The P.W.D was under the control of a single chief Engineer, who was given the assistance of two asstt Engineers, until April 1944, when the administration Office was bifurcated into two independent units, viz., Office of the C.E. for Irrign and Office of the C.E. for R & B. The two asstts to the Chief Engineer were allotted to the two Offices newly created, one each.

The chief Engineer for Irrigation has in his charge all the irrigation work in the state including the KRS and allied works and the civil engineering works connected with the Jog Power Scheme. Since the bifurcation the work in the Irrigation Department has increased considerably on account of the (1) investigation of large schemes included in the five year programme of irrigation works approved by Government (2) scrutiny of number of projects for restoration of tanks prepared by the special Ranges constituted for the purpose and (3) working of the Postwar development projects and other schemes. The transfer of the water supply schemes of the Bureau of Sanitary Engineering from the Public Health Deptt to the P.W.D has also added to the work in the Irrigation Department.

It has not been possible for the Executive Engineer to cope with the increasingly heavy work and consequently he could not devote as much attention as is necessary for the adequate scrutiny of projects. The Executive Engineer has therefore submitted proposals for (1) the entertainment of an additional Assistant Engineer on the usual grade pay of Rs 200-40/2-400 and a typist clerk on Rs 30-4-70 initially for one year, and (2) for replacement of the post of a graduate Draftsman on Rs 80-5-125-+24 D.A. instead.

Mr J C Berry is not in favour of the proposals.

There being great need for some additional assistance to the E.E. so that the projects may be seen to in greater detail and submitted in proper form, the proposals have been approved by the Dewan and the Ministers for P.W. The Conference of the Hon Ministers is required to be held before obtaining the sanction of His Highness.

4. Letter No.2128/ dated 4-10-1945 from the Chief Engineer for Irrigation forwarding proposals for the entertainment of an additional Assistant Engineer in grade Rs.200-40/2-400 to serve as a Technical Assistant to him and a typist-clerk on Rs.30-4-70 temporarily for a period of one year from 1-11-1945.

Order thereon No. P.W. 465-46/ Ests. 77-45-2 dated, Bangalore, 4th Jan. 1946.

The Public Works Department was under the control of a single Chief Engineer, who was given the assistance of two Assistant Engineers until April 1944 when the administrative office was bifurcated into two independent units viz., Office of the Chief Engineer for Irrigation and the Office of the Chief Engineer for Roads and Buildings. The two Assistants to the Chief Engineer were allotted to the two offices newly created - one each.

2. The Chief Engineer for Irrigation has in his charge all the irrigation works in the State including Krishnaraj Sagar and allied works and the Civil Engineering works connected with Jog Power Scheme. Since the bifurcation, the work in the irrigation department has increased considerably on account of the (1) investigation of the large schemes included in the five year programme of irrigation works approved by Government, (2) scrutiny of good number of projects for restoration of tanks prepared by the special Ranges constituted for the purpose, and (3) working of the postwar development projects and other schemes. The transfer of the water supply schemes of the Bureau of Sanitary Engineering from Public Health Department to the Public Works Department has also added to the work in the irrigation department.

3. The Chief Engineer for Irrigation has stated that it has not been possible for his one Assistant to cope with the increasingly heavy work and consequently the Assistant is not able to devote as much attention as is necessary for the adequate scrutiny of projects He has, therefore, submitted proposals (1) for the entertainment of an additional Assistant Engineer on the usual grade pay of Rs.200-40/2-400 to serve as a Technical Assistant to him and a typist-clerk on Rs.30-4-70 temporarily for a period of one year and (2) for retrenchment of the post of additional graduate draftsman on Rs.80-5-125 + Rs.24 D.A. sanctioned in the Government Order dated 28-10-1944 read above.

4. Government are pleased to sanction the proposals of the Chief Engineer temporarily for a period of one year.

5. The continuance of the additional graduate draftsman from 6-11-1945 till the Technical Assistant sanctioned above assumes charge of duties is also sanctioned.

Secretary to Government,
Public Works Department.

To

The Chief Engineer for Irrigation.
The Comptroller to Government (through the Financial Secretariat).
